

## THE HEALTHY CHOCOLATE

No artificial flavors, artificial colors, preservatives, nor added caffeine

**The prices listed on this sheet include shipping charges.** As a reference, shipping is \$15.00 per case.

**A case of any of the following is**

**\$125.00 WHOLESALE      or      \$165.00 RETAIL**

**As a service to our customers, we also are offering one-quarter case lots at a price of**

**\$31.25 WHOLESALE      or      \$41.25 RETAIL**

**This price includes shipping; it is one-quarter of a case of any given product enabling everyone to have a variety.**

Attention should be paid to your total ORAC values for the day. Recommended to improve health is 10,000 to 12,000 per day. On average people are lucky to get 500-800 per day. The healthy chocolate should be enjoyed three times per day for better health. Example: 1 Power Square is 3,582; 3 Power Square per day would equal 10,746. This would put you on target for better health!

Item Description	Per Case	Wholesale Price Per Serving	Retail Price Per Serving	One-quarter case represents

# Important to know

- In 2005, MXI Corp released the first truly healthy chocolate. Unlike most other commercially available chocolates, MXI Corp's premium grade chocolate contains COLD-PRESSED cacao beans, and does not contain any milk fats, alkali, hydrogenated oils or other artificial ingredients.
- ORAC stands for **O**xxygen **R**adical **A**bsorbance **C**apacity. These products are certified by Brunswick Labs, an independent, third-party laboratory that provides analytical services for some of the world's finest research institutions, corporation, and public organizations. Oxidation in the body is similar to rust on metal or fruit that is exposed to air and turns brown.
- Xoçai™, pronounced (Shǒ-sái) or (show-sigh). Becoming a wholesale shopper is easy. Just \$39.00, order two cases, and select one case to be shipped to your door each four weeks. Can be cancelled up to ten days prior to shipment any month! Convenient and a great deal. HERE IS TO BETTER HEALTH FOR ALL OF US. So far, I've lost 21 pounds, my blood pressure has come down and I have far less aches and pains.
- Shipping charges are \$15.00 per case whether you are a wholesale or a retail customer. There is no tax because it is food.
- These products **should not** be thought of as candy as it is food for the cells of your body in a very pure state. If given to a child (which is totally safe) you would adjust to a smaller amount, such as 1 Power Square per day.
- **Company was started by a DIABETIC who went on to lose 125 pounds eating chocolate.**
- Products are patented. This is the only company with the cold-processed chocolate. Can only be purchased through independent marketers. The philosophy is the company will give back to distributors what it would have spent on advertising. Word of mouth is usually better than any advertising a company can do.
- Talk to us about a special referral program. If you choose not to be in business for yourself, we will have a special **"treat"** for each referral you send our way! 

Thank you so much for your interest and/or purchase. We have many brochures, literature, CDs, DVDs, web site links, etc. available for further study by anyone who may be interested. Please just let us know if we can help.
